PIPAC WORKSHOP

**REGER – ORIGINAL DEVELOPER OF PIPAC TECHNOLOGY
MORE THAN 20,000 CLINICAL APPLICATIONS WORLDWIDE**

GERMAN PIPAC CENTER – EVK HERNE

ABOUT THIS WORKSHOP

Welcome to the PIPAC Advanced Course at the German PIPAC Center, EVK Herne. This program provides comprehensive scientific, technical, and clinical training in Pressurized Intraperitoneal Aerosol Chemotherapy (PIPAC) and PITAC.

Participants will train directly with the original developers and technological pioneers of PIPAC/PITAC, representing the largest global clinical experience in intraperitoneal aerosol therapy. With more than 20,000 clinical applications worldwide, the faculty combines scientific leadership with practical expertise.

The course integrates live surgery, structured hands-on training, state-of-the-art technology demonstration, and implementation guidance. It further provides access to long-term collaboration, registry participation, expert site visits, and interdisciplinary case discussions to support sustainable program development.

ABOUT THE HOST INSTITUTION

EVA Ruhr is one of the largest Protestant networks for health and social services in Germany, firmly rooted in the Ruhr region and based on the organizations Diakonie Ruhr, Diakoniewerk Gelsenkirchen und Wattenscheid, Evangelische Stiftung Augusta, and Evangelische Krankenhausgemeinschaft Herne/Castrop-Rauxel.

Across seven hospital locations in Bochum, Castrop-Rauxel, Gelsenkirchen, Hattingen, Herne, Herne-Eickel, and Witten, EVA Ruhr provides high-level medical care covering a wide range of specialties.

The Evangelisches Krankenhaus Herne, home of the German PIPAC Center, is part of this network and represents a leading center for advanced visceral and oncologic surgery.
